

AMERICAN PARKINSON DISEASE ASSOCIATION OF ST. LOUIS

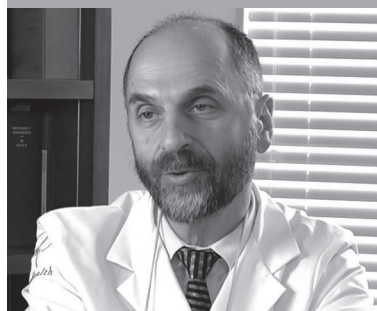

*Invites You to Attend a Special Lecture
dealing with*

BRAIN AND BEHAVIOR: Coping with Parkinson's Disease

GUEST SPEAKER:

JOSEPH H. FRIEDMAN, MD

Director of the Parkinson's Disease & Movement Disorders Center of NeuroHealth, Professor of Clinical Neurosciences at Brown University and author of the 2008 book, *Making the Connection Between Brain and Behavior: Coping With Parkinson's Disease*

"While we use motor dysfunction to diagnose PD, it is actually the behavioral problems that cause the most devastating consequences of this illness."

SUNDAY, JULY 26, 2009

1:30 PM – 3:00 PM

Depression, anxiety, apathy and fatigue are probably the most common of all behavioral aspects of PD, yet little is known about any of them. Dr. Friedman will be discussing these and other non-motor aspects of Parkinson's disease at this special lecture.

CONGREGATION SHAARE EMETH

11645 LADUE ROAD*

*located at the corner of Ballas and Ladue Roads two blocks east of Highway 270. Enter parking lot off of Ballas Rd. on the north side of the building and follow the signs to the sanctuary.
